GREETINGS DEAR FRIENDS,

It is a great honor for me to present the "KAR.GE Export Catalogue 2017", the first Georgian-English Print and Internet editions, with 54 selected companies, their 65 brands and 389 products - a total of 509 records all with photos, descriptions and contact information. This is a modest but a very responsible step for the KAR.GE Movement in the way of serving the mission of raising the awareness, sales and exports of quality Georgian products.

The KAR.GE Movement (<http://kar.ge>) is a community organization. We are very proud of all the distinguished results of our specific activities carried out daily, persistently and purposefully since December 1, 2014 in order to promote quality Georgian products, including: The unprecedented raising of interest of Georgian society towards Georgian products, the president of Georgia initiated his campaign "Request Georgian" in January 2017, the Georgian government expanded the governmental program "Produce in Georgia" with the components of promoting Georgian products, the Enterprise Development Agency of the Ministry of Economy and the Agricultural Projects' Management Agency of the Ministry of Agriculture started actively promoting Georgian products in 2016, several community groups have been created with the purpose of Georgian product promotion and the related activities. The demand and the sales of quality Georgian products are increasing with unprecedented rates as a result.

We sure understand that it is very hard to amaze someone in the world in the 21st century. However we think that Georgia has unique products that no other country can offer. In order to better present them we started the first version of the KAR.GE catalogue in 2016 and placed the internet version on <http://kar.ge>. It shortly united 200+ records of producers, brands, products, retailers, distributors and B2B service providers. But soon we clearly saw that it was not enough. Therefore we created this different kind of export catalogue.

Take a close look at the records of the catalogue. We present the local producers, their brands, their products, retailers that trade with only Georgian products, distributors and the B2B service providers. Each record includes an image, a short description and contact information. Please note, we not only provide contact information but also show you an image of the product and a description. You will not be able to see any information that you can find on Google. But you can definitely read and see something in the "KAR.GE Export Catalogue 2017" that you cannot see anywhere else.

The 509 records of the "KAR.GE Export Catalogue 2017" is just a start. This is the distinguished part of Georgian business. They have stable quality, stable price and stably supply. They value the power of opportunity and are ready to be a reliable partner for you. It is important to note that the printed Georgian and English versions of the "KAR.GE Export Catalogue 2017" were published in March 2017 as well as the bilingual internet "KAR.GE Export Catalogue 2017" which is integrated online on <http://kar.ge>. The printed version will be an annual publication, while the internet version will be constantly updated and enriched with new records.

I would like to express special thanks to Nikora JSC and Campa LLC for sponsoring the KAR.GE catalogue initiative since the very first steps in 2016. We thank all the companies who are presented in the catalogue because they all understand that power is in unity! Many thanks to all the media organizations who supported the catalogue development process and KAR.GE Movement activities by publicizing every step: "Business Morning" and "Business Contract" on TV Pirveli; "Econometri"; "Real Space"; "Morning Moambe" and "Moambe" on the Public Broadcaster, "Business Code" on TV Iberia; "Business Contact" on Maestro TV; "Talks About Economy" and "Night Studio" on TV Obieqtivi; "Barrier", "Your Time" and "Daily Show" on TV Kavkasia; "Talks About Economy" and "Public Choice" on TV New Georgia, "#hashtag" on TV Adjara; "2030" on GDS TV; "Business Courier" on Rustavi2; "Business Positive" and "Promoter" on Radio Positive; "Professionals" and "Business Lawyer" on Radio Commersant; "Bar Code", "Peak Hour" and "Farmers' Hour" on Public Radio; "I Choose Quality" on Radio Pirveli; "Discover Georgia" on Radio Jako; "Economics" on Radio Imedi. Special thanks to printing company COLOR for professional design and printing services. And of course thanks to the KAR.GE Movement working group who purposefully and persistently worked on the catalogue project.

Just one more thing ... We have far more contacts and information than you see in the catalogue. So, if you have a related question, please do not hesitate to contact us. Let's join forces and increase the awareness, sales and the export of quality Georgian products together.

Power is in Unity!

CHIRCOLAD

Chircolad is the Georgian brand name. The name was born as a result of a lot of thinking about chocolate and dry fruit "twinning". These were the times when the founders were thinking about how to name their product. "Chircolad" was truly a "lucky strike", a perfect finding that united both ideas - Chocolate and dry fruit - ("chiri" in Georgian). The brand name was an instant HIT.

LED TV

AG Microelectronics produced the first LED TV in Georgia in Spring 2016 after many months of pre-operational works. There are 32" and 40" versions. Georgian society loved the high quality products from first sight. The quality of the first Georgian LED TV was not only no less than that of imported competitors' but it was cheaper too. Therefore sales are increasing.

GOAT'S MILK BUTTER

Individual entrepreneur Liana Demetrashvili runs a goat farm in Tetrtskaro and produces goat's milk products: goat milk, butter, cheese, nadughi (ricotta cheese). The products are sold on the local market under the brand name "Amaltea". Goat's milk butter is one of the most popular products of Amaltea. The price is higher than butter from cow's milk, but it is in high demand because of its useful features.
