Greetings dear friends,

It is a great honor for me to present the "KAR.GE Export Catalogue 2018", the second edition, with a total of 400 records, all with photos, descriptions and contact information. This is another modest but a very responsible step for the KAR.GE Movement in the way of serving the mission of raising the awareness, sales and exports of quality Georgian products.

The KAR.GE Movement (<http://kar.ge>) is a community organization. We are very proud of all the distinguished results of our specific activities carried out daily, persistently and purposefully since December 1, 2014 in order to promote quality Georgian products. The major projects that we accomplished in 2017 are truly remarkable: KAR.GE Export Catalogue 2017, Local KAR.GE newspaper catalogue, the first International business forum "Buy Georgian", participation in IFFE 2017 in South Korea, December "30 day challenge" and the "New Georgian Product Festival 2017" ... and these are just the major projects.

What you see now is the "KAR.GE Export Catalogue 2018". We created the first version of the KAR.GE catalogue in 2016 and placed the internet version on <http://kar.ge>.

ge. It shortly united 200+ records of producers, brands, products, retailers, distributors and B2B service providers. But soon we clearly saw that it was not enough. Therefore we created this different kind of export catalogue as well as the local newspaper catalogue last year. And we will continue to do so.

Take a close look at the records of the catalogue. We present the local producers, their brands, their products, retailers that trade with only Georgian products, distributors and the B2B service providers. Each record includes an image, a short description and contact information. Please note, we not only provide contact information but also show you an image of the product and a description.

The 400 records of the "KAR.GE Export Catalogue 2018" are not much, but they represent the distinguished part of Georgian business. They have stable quality, stable price and stably supply. They value the power of opportunity and are ready to be a reliable partner for you. It is important to note that the internet "KAR.GE Catalogue" (in Georgian) is integrated online on <http://kar.ge>. The printed version is an annual publication, while the internet version is constantly updated and enriched with new records.

I would like to express special thanks to Nikora JSC and Campa LLC for sponsoring the KAR.GE catalogue initiative since the very first steps in 2016. We thank all the companies who are presented in the catalogue because they all understand that power is in unity! Thanks to printing company COLOR for professional design and printing services. And of course thanks to the KAR.GE Movement working group who purposefully and persistently worked on the catalogue project.

Power is in Unity!

Tanel Zivzivadze

BRAND

Alcoholic Drinks

CHATEAU NEKRESI

The trademark "Chateau Nekresi" was created by the joining of two words, both of which are associated with wine countries and their winemaking traditions: The word "Nekresi", the name of a monastery that is located near the Alazani Valley on the top of a mountain, emphasizes Georgia as the cradle of wine; the word "Chateau", the name of the land property of French aristocrats, emphasizes France - the leading country in modern winemaking.

Farming

NAZVREVI

The brand name has a unique history. More than 2 centuries ago, in the times of Erekle II, there was a vineyard on the place where Nazvrevi LLC now operates its farms. That vineyard was used to produce special wine for the king. And the name "NAZVREVI" - the place where ZVARI (vineyard) was grown - comes from that.

CHURCHKHELA

"Madliani 2017" is a natural traditional churchkhela producer company. The raw ingredients are – the Kakhetian Rkatsiteli grape juice (ceoncentrated), the Lomtgora corn Grade I flour and the Georgian walnuts. This exactly is the company "secret" that makes churchkheles so unique by its origin and taste. Churchkheles are handmade and produced in a way as it was done ages ago. Therefore "Madliani 2017" churchkheles are 100% natural, 100% traditional and 100% handmade without any additives. The products are sold only in the branded packages. The length: 25 sm; Shelf life - 6 month on 10 C - 25 C temperature; No special requirements for transportation. Eggs

CHICKEN EGGS

ISO 9001:2015 certified and Georgian Quality Mark holder Dila Products LLC was founded in 2006. The factory is located in the Tetritskaro district and is mainly concentrated on the chicken egg production, usual eggs (0, I, II categories) and Omega-3 enriched eggs. The 0, I and II category eggs are packed in the 10 and 15 unit packs and delivered to the supermarkets and markets for sale throughout all Georgia. CONTACT: Tetritskaro district, village Koda, Georgia; + 995 210 60 29; info@dila.com.ge; http://dila.com.ge; FB / Dila Products

OMEGA-3 ENRICHED EGGS

Omega-3 enriched eggs are produced and sold in many countries of the world, but the Dila Products LLC is the only company in Georgia that managed to produce it locally since 2017. The chicken fodder is comprised of high quality maize and other essential ingredients. In order to get the Omega-3 enriched egg the chicken are given the special fodder - Optomega-100 that is produced by the Optivate International (UK). This contains 100% salmon oil, because it is made of salmon itself. The Omega-3 enriched eggs are sold in HARTMANN eco packages and can be easily identified on the shelf. CONTACT: Tetritskaro district, village Koda, Georgia; + 995 210 60 29; info@dila.com.ge; http://dila.com.ge; FB / Dila Products

ISO 9001:2015 certified and Georgian Quality Mark holder Dila Products LLC was founded in 2006. The factory is located in the Tetritskaro district and is mainly concentrated on the chicken egg production, ordinary eggs (0, I, II categories) and the Omega-3 enriched eggs. The company sells its products under the brand name "Dila" on the local market. The chickens are grown in the clean, healthy environment where all the industrial processes are automated. The fodder is healthy and free of GMO.

Contact: Tetritskaro district, village Koda, Georgia;
+ 995 210 60 29; info@dila.com.ge;
<http://dila.com.ge>; FB / Dila Products

The overall production area is more than 53 hectares. All the production processes are automated including the modern incubator, chicken growing facility and the egg production facility.

The chicken fodder is locally produced in the special factory that covers more than 3000 square meter area in addition to the 7000 cubic meter corn reserve elevator. The storage facility was completely refurbished in 2017. Corn storage silos as well as the transporters for ingredients were added.

The daily ratio for the egg layer chicken contains the high quality maize and other corn cultures, also sunflower, soya and oil. The fodder is constantly checked on microbiological purity. Chicken grow in the clean and healthy environment

The eggs are packed in the ecologically pure cardoon packs. To achieve that the company acquired modern equipment from Netherlands, from SANOVO company.

The company owns the distribution network in Tbilisi and the whole Georgia. Highly equipped 20 distributor cars deliver products to the buyers in the shortest period of time. The products can be bought in nearly all the markets, supermarkets and hypermarkets of Georgia.

Chicken Egg is a unique product with all the useful nutrients balanced. It is the source of all the inevitable amino acids, that are not generated in the human body. The egg contains saturated and unsaturated oils, carbohydrates, A,D,E,K,H and B group vitamins, other minerals and micro elements that are vital for humans

Omega-3 enriched eggs are produced and sold in many countries of the world, but the Dila Products LLC is the only company in Georgia that managed to produce it locally since 2017. The chicken fodder is comprised of the high quality maize and other essential ingredients. In order to get the Omega-3 enriched egg the chicken are given the special fodder - Optomega-100 that is produced by the Optivite International (UK). Omega-3 acids are inevitable for human organism as it is rich with 3 types of acids that can not be created by the human organism.

The company cares about the environment. Therefore it uses cardoon packages. The most of the eggs produced are sold in HARTMANN eco packages and can be easily identified on the shelf. The company plans to switch to eco packages in the nearest future. The new series of products - "Gantiadi" are already using them.

Energy Drinks

START, ENERGY DRINK

The Start LLC was established in Agara in 2017. The company produces energy drinks – “START” and “ROCKNROLL” in its factory in Tbilisi. The primary goal of the company is to earn a name for itself and sell the product on the domestic / International markets. The energy drink market is very saturated in Georgian and abroad, but START has all the odds on its side to differentiate itself from the crowd.

April 6, 2017. "KAR.GE Export Catalogue 2017" presentation at the "Laerton Tbilisi" Hotel.

#ქართულიადაკარგია

მოდრაობა KAR.GE-ს -ს გამომცემა № 1. ტირაჟი-25,000. ვრცელდება 2017 წლის 22 მაისს "კვირის პალიტრა"-ს დანართის სახით, უფასოდ!
დამატებითი ინფორმაციისათვის გთხოვთ მიმართეთ მოდრაობა KAR.GE-ს მისამართზე - info@kar.ge ან დაუკავშირდით საინფორმაციო ცენტრს - 118 08.

The front cover (screen) the "KAR.GE Catalogue" newspaper publication. 25,000 copies were published and sent out to the Georgian population on May 22, 2017.

July 2017 was very challenging for Georgian peach and peach farmers, because they could not sell peaches, even for cheap. KAR.GE contributed to the increase of sales of Georgian peaches on the domestic market via the special Internet campaign.

October 19-23, 2017. KAR.GE presented the quality Georgian products at IFFE 2017 - The International Fermented Food Expo 2017 in the Republic of Korea, Jeonju city.

December 22-23, 2017. KAR.GE Movement and Karvasla Trade & Business Center organized the two day "New Georgian Products' Festival 2017".

December 1-30, 2017. In order to promote the Georgian quality products KAR.GE Movement organized the massive #30daychallenge for the sixth time. This time FB Live videos, <http://kar.ge> posts and social network power resulted in far massive wave than it was ever before.

The 1-st International Business Forum - "Buy Georgian" was arranged at the "Hotels & Preference Hualing Tbilisi" on October 10, 2017. 300+ business professionals attended the event that aimed to boost the sales of the quality Georgian products on the domestic and International markets. The event was organized by a pool of 55 organizations led by the KAR, GE Movement. The "Buy Georgian" forum was supported by the Georgian Producers' Federation (GPF), the Georgian Employers' Association (GEA) and the Tax Payers' Union (TPU). The World-OKTA - Overseas Korean Trade Association Tbilisi Branch and EU4BUSINESS - EBRD Credit Line were the International partners of the event. The Business Media Georgia (BM) and IMEDI FM were the media partners of the business forum. Rustavi AZOT was the general sponsor of the event.
