

KAR.GE
MOVEMENT

KAR.GE EXPORT CATALOGUE 2019

#3 Annual Publication

Greetings dear friends,

It is a great honor for me to present the “KAR.GE Export Catalogue 2019”. This is the third, but a very responsible step for the KAR.GE Movement in the way of serving the mission of raising the awareness, sales and exports of the quality Georgian products.

The KAR.GE Movement (<http://kar.ge>) is a community organization. We are very proud of all the distinguished achievements of our specific activities carried out daily, persistently and purposefully since December 1, 2014. During 2014-2018 we implemented 56 projects, 26 of which were done by actual crowdfunding. We had ups and downs, but we never stopped.

What you see now is the “KAR.GE Export Catalogue 2019”. We started up the first version of the KAR.GE catalogue in 2016 and placed the internet version on <http://kar.ge>. It shortly united 200+ records of the producers, brands, products, retailers, distributors and B2B service providers. But soon we clearly saw that it

was not enough and we created the export catalogue. And we are doing that every year.

Take a close look at 462 records of the catalogue. We present the local producers, their brands, their products, retailers, distributors and the B2B service providers. Each record includes an image, a short description and a contact information. This is a pretty unique approach.

The 462 records of the 55 companies in the “KAR.GE Export Catalogue 2019” are not much, but they represent the distinguished part of the Georgian businesses. These producers have stable quality, stable price and stably supply. They value the power of opportunity and are ready to be a reliable partner for you. It is important to note that the internet “KAR.GE Catalogue” (the Georgian version) is integrated online on <http://kar.ge>. This printed version is an annual publication, while the internet version is constantly updated and enriched with the new records.

And again, I would like to express special thanks to Nikora JSC and Campa LLC for sponsoring the KAR.GE catalogue initiative since the very first steps in 2016. We thank all the companies who are presented in this publication because they all understand that power is in unity! And of course thanks to the KAR.GE Movement working group who purposefully and persistently worked on the project.

Power is in Unity!

Tariel Zivzivadze

DILA PRODUCTS LLC

ISO 22000:2005 certified and Georgian Quality Mark holder Dila Products LLC was founded in 2006. The factory is located in the Tetrtskaro district and is mainly concentrated on the chicken egg production, ordinary eggs (0, I, II categories), the Omega-3 enriched eggs and the brown eggs. The company sells its products under the brand name "Dila" on the local market. The chickens are grown in the clean, healthy environment where all the industrial processes are automated. The fodder is healthy and free of GMO.

Contact: Tetrtskaro district, village Koda, Georgia; + 995 210 60 29; info@dila.com.ge; <http://dila.com.ge>; FB / Dila Products

FODDER PRODUCTION

The chicken fodder is locally produced in the special factory that covers more than 3000 square meter area in addition to the 7000 cubic meter corn reserve elevator. The storage facility was completely refurbished in 2017. Corn storage silos as well as the transporters for ingredients were added.

FODDER COMPOSITION

The daily ratio for the egg layer chicken contains the high quality maize and other corn cultures, also sunflower, soya and oil. The fodder is constantly checked on microbiological purity. Chicken grow in the clean and healthy environment in village Koda, which is 20 km away from Tbilisi.

PRODUCTION

The overall production area is more than 53 hectares. All the production processes are automated including the modern incubator, chicken growing facility and the egg production facility.

DISTRIBUTION

The company owns the distribution network in Tbilisi and the whole Georgia. Highly equipped 20 distributor cars deliver products to the buyers in the shortest period of time. The products can be bought in nearly all the markets, supermarkets and hypermarkets of Georgia.

CARTOON PACKAGES

The company cares about the environment. Therefore it uses cardoon packages. The most of the eggs produced are sold in HARTMANN eco packages and can be easily identified on the shelf. The company plans to switch to eco packages in the nearest future. The new series of products - "Gantiadi" are already using them.

EGG PACKAGING

The eggs are packed in the ecologically pure cardoon packs. To achieve that the company acquired modern equipment from Netherlands, from SANOVO company.

EGGS

Chicken Egg is a unique product with all the useful nutrients balanced. It is the source of all the essential amino acids, that are not generated in the human body. The egg contains saturated and unsaturated oils, carbohydrates, A,D,E,K,H and B group vitamins, other minerals and micro elements that are vital for humans

OMEGA-3 ENRICHED EGGS

Omega-3 enriched eggs are produced and sold in many countries of the world, but the Dila Products LLC is the only company in Georgia that managed to produce it locally since 2017. The chicken fodder is comprised of the high quality maize and other essential ingredients. In order to get the Omega-3 enriched egg the chicken are given the special fodder - Optomega-100 that is produced by the Optivite International (UK). Omega-3 acids are inevitable for human organism as it is rich with 3 types of acids that can not be created by the human organism.

BROWN EGGS

The company started to produce brown eggs in 2018. The eggs look like a village egg that is quite popular in the Georgian population. This was achieved by creating a special farm for Lohman Brown and Lohman Sandy chicken breeds.

BALTIC SPRAT SALTED
Baltic Sprat Salted is one of the most delicious products produced under the brand name "Okeane" - a member of the "Nikora" Holding. It can be bought in hundreds of retail outlets throughout Georgia. 5.76 billion USD - the anti record
in the whole history of
Georgia per year.

KAR.GE Movement organized the participation of 12 Georgian producers in the Korean Tourism Fair 2018 (KOTFA 2018) on June 14-17, 2018 and the Import Goods Fair 2018 (KOIMA) on June 21-23, 2018. The participation was supported by the Embassy of Georgia in the republic of Korea.

KAR.GE Movement and World-OKTA organized participation of the 15 Georgian producers in the International Fermented Food Expo 2018 (IFFE 2018) already the third time. The IFFE 2018 was arranged during 25-29 October 2018. The Embassy of Georgia in the republic of Korea supported the event.

The team of seven Georgians and two Koreans that presented the Georgian stand on IFFE 2018.

The presentation of the "KAR.GE Export Catalogue 2018" was arranged on April 3, 2018. 400 records of the 42 companies are presented in the catalogue which aims to raise the awareness, sales and exports of quality Georgian products.

We raise the awareness, sales and exports of the quality Georgian products

In order to promote the quality Georgian products KAR.GE Movement organized the massive #30daychallenge for the seventh time during 1-30 December 2018. This time FB Live videos, <http://kar.ge> posts and social network power resulted in a far massive wave than it was ever before.

KAR.GE Movement arranged the blind degustation of the Georgian and imported juices and nectars at the Holiday Inn Tbilisi. Up to 50 invited guests tasted and evaluated 29 different brands of 6 aromas of juices and nectars.

KAR.GE Movement was a supporter of the "Blockchain & Bitcoin Conference Georgia 2018", that was organized by the International organization - Smile-Expo at the Radisson Blu Iveria Hotel Tbilisi on June 20, 2018. Hundreds of visitors from more than 20 countries attended the event.

KAR.GE Movement arranged a campaign "This is our product" during May 1-31, 2018 with the goal to raise the awareness of the consumers with respect to the Georgian quality products and their producers. The campaign was devoted to the 100-th jubilee of the first democratic republic of Georgia
